

BR POLYESTER PROTECTOR

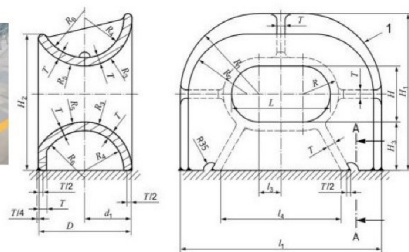

An excellent cost-effective option to protect your ropes from abrasive surfaces. BR mooring rope protector of BLACK ROPE is a flat high tenacity polyester webbing pad with Anti-Abrasion coating used for the protection of mooring ropes against abrasive surfaces. The Velcro scratch tape, firmly stitched on the sleeve guard, is used for quick & easy installation and removal.

IMPORTANT: Your ropes can be easily damaged if subjected to rough surfaces or sharp edges. With our mooring rope protector of BLACK ROPE it will prevent strength loss and maximize the lifespan of your mooring ropes.
