Mooring Management Software

The Safest Rope Monitoring Choice

 **BLACK ROPE**

# SAFELINE

## Mooring Management & Monitoring Software

Our in-house **Mooring Management & Monitoring Software - SAFELINE** - provides real-time data for your vessels' mooring lines.

Now, You can enjoy easy and seamless **Rope Health Monitoring & Management** with **BLACK ROPE's SAFELINE** software solution. **SAFELINE** assesses:

- Full management
- Track line usage
- Condition monitoring

in order to **efficiently** and **accurately** indicate whether the replacement of your mooring lines and tails is necessary, as per **MEG4** and the amended **SOLAS** requirements.

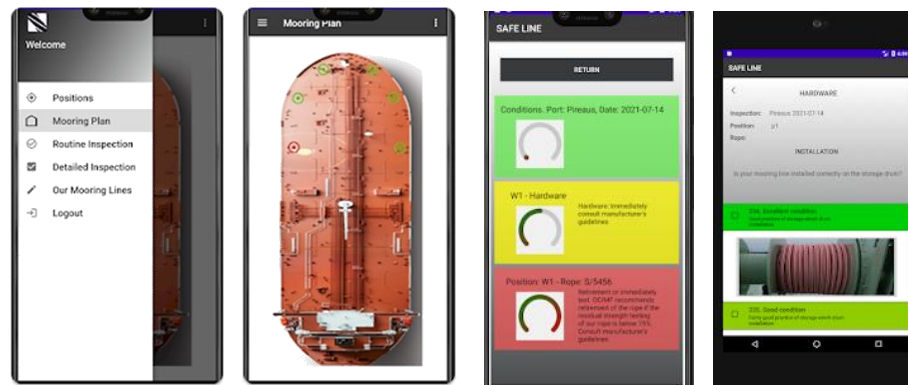

The software's application version enables the simple and safe on **board visual inspection** of your mooring lines, and also interconnects your Company's fleet with Black Rope. Therefore, you can develop a complete Mooring Management Strategy.

## Mooring Management & Monitoring Software

### Awarded Safety

**SAFELINE** – and by extension – **BLACK ROPE** received the **SAFETY AWARD 2023** at the **Lloyd's List Greek Shipping Awards**. It was a great honor, reflecting our constant commitment to continuously contribute in maximizing safe mooring operations - and by extension - safety on board.

Throughout our course, we have always been oriented towards providing mooring ropes and solutions extending beyond their core functions. We understand that our demanding shipping industry does not require "just products", but rather complete solutions that ensure efficiency, regulatory compliance and that - most importantly - safeguard human lives on board.
